## MAP Testing

The Missouri Assessment Program assesses students in grades 3-6 in ELA (English Language Arts) and Math and 5th grade students in Science. These tests are computer-based. Students and teachers have been preparing for these tests all year long. These numbers are used by the state as one measure of our school's effectiveness.

This is a wonderful way for students to show what they've learned and earn some neat celebrations from us! You can help by making sure your student is at school each day when he/she is scheduled to test—research shows students test better when they are with their classmates than when they have to make-up the test. Having students eat breakfast (either at home or at school) is another way to help prepare your child. Finally, make sure your students get plenty of sleep! Let's go, Tigers!

### Easter Eggs

WME raised an incredible \$704 for Montgomery County Cancer Supporters! Mrs. Curless' class raised \$127.70 and earned a pizza party! This amount was \$300 more than raised last year. We have such caring Tigers!
